**Hon Mrs Regina IP's motion on
“Following the practice of the country to adhere to
the United Nations' 2030 Agenda for Sustainable Development”**

Wording of the Motion

That the United Nations adopted the 2030 Agenda for Sustainable Development on 25 September 2015 and set 17 Sustainable Development Goals, aiming at resolving the problems faced by humankind in social, economic and environmental aspects, so as to let the whole world be on the track of sustainable development; China, as a member state of the United Nations, expressed its full support in this regard and published the China's National Plan on Implementation of the 2030 Agenda for Sustainable Development on 19 September 2016 to actively implement the agenda for sustainable development, and make concerted efforts with other member states to eradicate poverty, realize equality and address climate change; in view of this, this Council urges that the Government, when formulating its future economic policy, must follow the practice of the country to adhere to the 2030 Agenda for Sustainable Development, in order to ensure that the future economic development can narrow the disparity between the rich and the poor, protect the environment, reduce the impact on climate change, as well as enable all the stakeholders in the community to benefit from and share the fruits of economic development.
