

Annex 1

The numbers of new intakes and graduates of the programmes under the Scheme and graduates who were employed in the relevant industries in the 2018/19 to 2020/21 academic years

Programme	Number of trainees					
	2018/19 Academic Year		2019/20 Academic Year ^[1]		2020/21 Academic Year ^[2]	
	New Intakes ^[3]	Graduates	New Intakes ^[3]	Graduates	New Intakes ^[3]	Graduates
Electrical & Mechanical Engineering and Construction	998	464	742	581	884	679
Medical Centre Operations	2	-	12	5	5	2
Aviation	24	-	14	-	3	8
Computer & Electronic Engineering	-	-	38	-	34	2
Information Technology	-	-	-	-	10	-
Arboriculture and Horticulture	-	-	-	-	13	-
Automobile	84	32	74	41	99	41
Others	16	6	16	12	14	7
Total	1 124	502	896	639	1 062	739
Percentage of graduates who joined the relevant industries^[4]	85%		98%		96%	

Note:

[1] The Scheme extended to Computer and Electronic Engineering industry in the 2019/20 academic year.

[2] The Scheme extended to Information Technology and Arboriculture and Horticulture industries in the 2020/21 academic year.

- [3] It generally takes two to four years to complete relevant programmes.
- [4] The percentage of graduates who joined the relevant industries was obtained from the results of the graduation tracking surveys conducted in the respective academic year. The tracking surveys targeted trainees of the Scheme who had registered as apprentices and completed the apprenticeship training. In the past three academic years, there were 180, 151 and 276 trainees participated in the tracking surveys respectively. The VTC does not maintain the breakdown of number of students joining the relevant industries by programme.
