**Note:**

- [1] The eligibility criteria of the ESGS cover independent non-profit-making education institutions offering full-time locally-accredited local self-financing sub-degree or undergraduate (including top-up degree) programmes. Therefore, all funded programmes are full-time programmes.
- [2] The approved projects generally cover various expenditure items for enhancing teaching and learning in designated academic areas. The expenditure items listed in the table above only cover those comprising relatively larger proportions of the approved grant.
- [3] The number of student benefitted are estimated by multiplying the maximum intakes per cohort provided by institutions and the committed minimum number of cohorts of student admission. In addition to the programmes covered by the projects, other students in the relevant institutions / faculties may also benefit from the equipment, facilities, teaching staff, etc. funded by the ESGS.
- [4] Institutions did not provide information on the cost savings and percentages of the approved projects.
