

Positive Parent Campaign

Playtime with Children

Roving Exhibition

The "Light Family" is going to share with parents on "Why to play" and "How to play" at shopping malls in various districts from June 2022 onwards. The roving exhibition includes **a video gallery** and a "Light Family" **photo booth corner** for families to capture their joyful moment. Parents may have a chance to bring home **a board game** which would help strengthen the parent-child relationship through play and create a quality playtime with their children. All activities are free of charge and souvenirs will be given out on a first-come-first-served basis.

Roving exhibition panels will be displayed in various public housing estates. Please refer to the webpage of the Positive Parent Campaign for details.
