

Task Force on Public Housing Projects

Terms of Reference

1. To monitor the timely handover of sites earmarked for construction of public housing projects.
2. To monitor the progress of individual public housing development projects and to consider measures to expedite their construction and intake.
3. As part of the monitoring, to produce and continually update a 10-year forecast of new public housing supply for public consumption and facilitate monitoring.
4. To consider and to resolve major cross-bureaux or inter-departmental issues affecting the timely completion of public housing projects.
5. To consider and formulate measures (other than those relating to increase in land supply which will be overseen by another committee) to increase the supply of public housing.
