Notes : Figures are subject to revision later on as more data become available. The seasonally adjusted quarter-to-quarter rate of change is not applicable to gross domestic fixed capital formation, as no clear seasonal pattern is found for this category due to the presence of considerable short term fluctuations.

(&) Figures are compiled based on the change of ownership principle in recording goods sent abroad for processing and merchanting under the standards stipulated in the *System of National Accounts 2008*.

(#) Revised figures.

( ) Seasonally adjusted quarter-to-quarter rate of change.

(^ ) After netting out the effects of the Government's one-off relief measures.

(\*) Change within  $\pm 0.05\%$ .

(@) Splicing has been applied to the indices in order to obtain better estimates of the rates of change for the year 2020.
