At present, 10 MHCCCs have completed re-engineering to provide service, providing 420 service places in total.

[Note 2] Service operators are required by SWD to provide no less than 53 service places in each district (i.e. the total number of places in all 18 districts should not be less than 954). Service operators can flexibly increase the number of HCCS places on top of the requirement so as to meet the actual service demand.
