Tuen Mun	351,954	360,053	376,695	370,365	344,728	
Yuen Long	485,245	527,287	536,081	545,256	453,267	

Note 1: Given that the services delivered by GOPCs and designated clinics in various districts were different during the epidemic, and that the service hours of individual GOPCs also vary depending on the availability of evening services and services on Saturdays, Sundays and public holidays, the provision of information on the average daily consultation quotas in various districts will not serve to accurately reflect the overall situation of service provision in the years concerned. As such, full year figures are provided.

Note 2: In view that the HA launched the services of designated clinics for COVID-19 confirmed cases in phases from February 2022 onwards, other GOPCs also suspended or adjusted their services to focus manpower and resources on supporting the services of the designated clinics. Since January 30, 2023, the general out-patient services of all affected clinics have resumed normal.
