

下投探空的操作過程

Dropsonde Operation

先將探空儀接駁到接收及處理系統及選好頻率

Register the dropsonde with the reception and processing system and select frequency

將下投探空儀置入投放管內
Place the dropsonde into the launcher

啟動按鈕將下投探空儀彈射出機外，降落傘隨後打開

Dropsonde released upon launch and the parachute will open shortly

量度高度，氣壓，氣溫，濕度，風向及風速，並即時傳回飛機
Measures altitude, pressure, temperature, humidity, wind direction and speed, and transmit
