Notes: Percentage changes are derived from unrounded figures.

Percentage changes are not presented whenever any of the two figures is negative, as it is difficult to interpret meaningfully the percentage change obtained. Figures may not add up to the total due to rounding.

⁽¹⁾ Cost of goods sold is obtained by deducting changes in stocks from the value of purchases of goods for sale.

⁽²⁾ Including the amount of subsidy related to anti-epidemic measures in 2022.
