**Hon LAM Chun-sing's motion on
“Promoting the popularization of flexible working system”**

Wording of the Motion

That fostering a family-friendly workplace is an important step towards building a harmonious and inclusive society; the implementation of flexible working measures will enable employees to better balance their work, life and family responsibilities, so that they can wholeheartedly and fully devote themselves to work, thereby achieving a win-win situation for employees and employers; in this connection, this Council urges the Government to actively provide enterprises and organizations with assistance and offer more incentives to encourage them to establish a flexible working system.
