Remark:

In view of the COVID-19 epidemic outbreak in Hong Kong in early 2020, the HA adjusted its services to cope with the epidemic. This should be taken into consideration when comparing the service volume of the HA in previous years. With the subsiding COVID-19 epidemic situation in Hong Kong and cessation of various anti-epidemic measures in early 2023, the HA gradually resumed provision of all of its public healthcare services to tie in with the Government's resumption of normalcy measures.
