

**Utilisation of evening clinic service of General Out-patient Clinics
in Wong Tai Sin District from 2021-22 to 2023-24**

Clinic	Utilisation of evening clinic service of General Out-patient Clinics (GOPCs)								
	2021-2022			2022-23			2023-24 [provisional figure]		
	Annual quota	Annual attendance	Quota utilisation rate	Annual quota	Annual attendance	Quota utilisation rate	Annual quota	Annual attendance	Quota utilisation rate
Our Lady of Maryknoll Family Medicine Clinic	36 048	33 648	99%	26 897	25 211	99%	26 395	24 721	99%
Robert Black GOPC	22 160	19 344	99%	4 407	3 112	98%	18 796	17 370	99%

Remark:

In view of the COVID-19 epidemic outbreak in Hong Kong in early 2020, the Hospital Authority (HA) started to activate designated clinics (including Robert Black GOPC of which the evening clinic service had also been so adjusted in 2022-23) for confirmed cases of COVID-19 in phases since February 2022 as well as suspended or adjusted services of other clinics to focus manpower on fighting the epidemic. All of the affected clinics resumed normal out-patient services from January 30, 2023. Therefore, the above situation should also be taken into consideration when comparing the HA's service volume in previous years. With the subsiding COVID-19 epidemic situation in Hong Kong and cessation of various anti-epidemic measures in early 2023, the HA gradually resumed provision of all of its public healthcare services to tie in with the Government's resumption of normalcy measures.
