The number of attendances includes telephone contacts, interviews and community visits with patients.

Note 2:

Figures are rounded to the nearest hundred and may not add up to the total figure.

Remarks:

In view of the COVID-19 epidemic outbreak in Hong Kong in early 2020, the HA has adjusted its services to cope with the epidemic. This should be taken into consideration when comparing the service capacity of the HA in previous years. With the subsiding local COVID-19 epidemic situation and cessation of anti-epidemic measures in early 2023, the HA has been gradually resuming provision of all of its public healthcare services to tie in with the Government's resumption of normalcy measures.
