**Hon Lillian KWOK's motion on
“Supporting students with special educational needs and improving the
policy on integrated education in Hong Kong”**

Wording of the Motion

That, in view of the continuous rise in the number of students identified with special educational needs ('SEN') in Hong Kong in recent years, this Council urges the Government to improve the policy on integrated education, including enhancing the existing measures to support SEN students and their families, strengthening teacher training, and promoting cross-sectoral cooperation among the healthcare, education and social welfare sectors to provide SEN students with more timely assessment, treatment, on-campus support and training services and improve the employment support and transition services for them, so as to enable them to learn and grow up in a happy environment, and nurture them to become the new driving force of society in the future.
