Note 2 Each service place may be utilised by more than one child.

Note 3 The average utilisation rate is calculated based on the actual utilisation of service sessions.

Note 4 Over the three years starting from 2024, SWD is extending ASCP(PC) in phases to cover all districts in Hong Kong. The number of participating centres will be increased from 16 to 28, and the number of service places from about 670 to nearly 1 200. SWD is collecting views to formulate the implementation details and plans to launch the first phase of the extended service in the first quarter of 2025.
