#The Government expects to seek funding approval from the Legislative Council within this year. As the project is at the planning stage, the actual completion date is to be determined.

*As the project is at the planning stage, the actual completion date and the types of parking spaces are to be determined.

¹ This STT car park originally had 160 conventional PC parking spaces, some of which were temporarily suspended due to the installation of APS. Once the project is completed, the car park will provide a total of 200 parking spaces, including 90 APS parking spaces. In other words, the actual number of additional parking spaces is 40.
