

Table 1: The points for non-elderly one-person applicants arranged for detailed vetting from 2022/23 to 2024/25

Year (as at end-March)	Points for non-elderly one-person applicants being arranged for detailed vetting
2022/23	425
2023/24	435
2024/25	444

Table 2: The highest and lowest ages of non-elderly one-person applicants that were housed to PRH flats from 2022/23 to 2024/25

Year (as at end-March)	Lowest age	Highest age
2022/23	49	59
2023/24	52	59
2024/25	50	59

Table 3: The ratio of actual allocation for non-elderly one-person applicants to the actual annual allocation from 2022/23 to 2024/25

Year (as at end-March)	Actual allocation of non-elderly one-person applicants ^{Note} (a)	Actual annual allocation ^{Note @} (b)	Ratio of actual allocation for non-elderly one-person applicants to the actual annual allocation [*] (a)/(b)
2022/23	1 990	30 890	6.4%
2023/24	1 510	23 600	6.4%
2024/25	2 130	29 100	7.3%

Note: Figures are rounded to the nearest ten.

@: Including all allocation categories (e.g. PRH Applications, Clearance Rehousing, Compassionate Rehousing and Transfers, etc.).

*: The annual allocation quota for non-elderly one-person applicants under QPS is set at 10% of the total number of flats to be allocated to PRH applicants with an upper limit of 2 200 flats. Taking into account the actual situation of the year (e.g. an offer has been made but flat intake cannot be completed by the end of the year, etc.), the estimated allocation may be different from the actual allocation. In any event, the HA will uphold the principle of optimising PRH resources and arrange the allocation of lettable flats to PRH applicants under various categories as soon as possible.
