

**Prevalence of Overweight (including Obesity) among Students
attending Student Health Service Centres
from the 2010/11 to 2023/24 School Year**

Note:

[^] Due to the impact of the COVID-19 epidemic, the figures for the 2019/20, 2020/21, and 2021/22 school years cannot be directly compared with data from other school years. For accuracy, the figures for the 2020/21 school year are not published.

[#] In the 2022/23 school year, annual health check services were only provided for students from Primary 1 to Primary 6 and Secondary 1 to Secondary 3.
