#### **Notes:**

1. Number of students denotes the position as at September of the respective school years.
2. The Education Bureau (EDB) does not keep information on local kindergarten students with special needs.
3. Statistics cover students with SEN under integrated classes/special classes in only three categories of private schools, namely private independent schools (PIS), the English Schools Foundation schools (ESF) and other private international schools as reported by the schools concerned in response to the annual Student Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect. EDB does not maintain related data of other private schools.
