**Dr Hon NGAN Man-yu's motion on
“Improving GBA talent standards and promoting talent flow in the region”**

Wording of the Motion

That Hong Kong, as an international talent hub, brings together diversified talents from around the world and serves as an important window for the country and the Guangdong-Hong Kong-Macao Greater Bay Area (‘GBA’) to open up to the world; in recent years, GBA has continued to deepen cooperation in areas such as talent nurturing, engagement, exchange, as well as professional services; in this connection, this Council urges the SAR Government to strengthen collaboration with the Mainland Government to jointly improve the GBA talent standards and promote talent flow in the region, so that Hong Kong can give better play to its role as a two-way platform for ‘bringing in and going global’ while strengthening its alignment with the international community, thereby enhancing the professional skills of talents in both places.
