application—must consider the representations before making a decision on the application.

  - (a) the Director must refuse the application; and
  - (b) subsection (3) does not apply to the refusal.
- (5) On approving the application, the Director may impose any condition considered appropriate.

  - (b) subject to subsection (5), refuse the application, but only if the Director considers it inappropriate to approve the application.
- (4) Without limiting the meaning of “inappropriate” in subsection (3)(b), the Director may consider it inappropriate to approve the application if the Director is not satisfied that the applicant meets both of the criteria referred to in section 9(2)(a) and (b).
- (5) If the Director intends to refuse the application, the Director—
  - (a) must give the applicant written notice of the intention and reasons for the refusal;
  - (b) must not refuse the application until the expiry of a 30-day period beginning on the date immediately following the date of the notice; and

- (c) if the applicant makes any representations, in the way specified in the notice, within that period to support the application—must consider the representations before making a decision on the application.
- (6) However, if the applicant is subject to a removal order—
  - (a) the Director must refuse the application; and
  - (b) subsection (5) does not apply to the refusal.
- (7) If the Director approves the application, the Director may—
  - (a) amend or remove any condition of registration previously imposed; and
  - (b) impose any new condition as the Director considers appropriate.
- (8) After approving the application, the Director must, subject to the applicant's payment of the prescribed fee—
  - (a) renew the applicant's registration as a registered fire engineer for the relevant class; and
  - (b) issue a registration card specifying the date on which the renewal takes effect to the applicant for the class for which the applicant is registered.

**12. Effect of existing registration pending Director's decision**

- (1) This section applies if the Director has not made a decision on an application made under section 11 before the day on which the existing registration is due to expire (*expiry day*).
- (2) If the application is made not less than 1 month before the expiry day, the existing registration is taken to continue in effect until the day on which the Director has made the decision.
- (3) Despite section 11(2), if the application is made less than 1 month before the expiry day—

- (a) the Director may process the application if the Director considers there is a good reason for doing so; and
  - (b) the existing registration ceases to have effect on that day even though the Director is still considering the application.
- (4) In this section—  
*existing registration* (現有註冊), in relation to an application made under section 11, means the registration as a registered fire engineer that the application seeks to renew.

**13. Effective date of renewal**

A renewal of registration (*existing registration*) under section 11 is, subject to an earlier removal of name under section 15, valid for 5 years—

- (a) if the Director approves the application for renewal before the existing registration expires—beginning on the date immediately after the expiry of the existing registration; or

  - (i) where the application is made not less than 1 month before the existing registration expires—despite section 12(2), beginning on the date immediately after the expiry of the existing registration; or
  - (ii) where the application is made less than 1 month before the existing registration expires—beginning on the date on which the Director's decision of approval of renewal takes effect.

### Division 3—Replacement of Registration Cards

#### 14. Issue of replacement registration card

- (2) When making an application under subsection (1), the registered fire engineer must—
  - (a) pay the prescribed fee; and
  - (b) if the original card is in hard copy form and is in the possession of the engineer—return the card to the Director.
- (3) The Director may refuse to issue a replacement card to the registered fire engineer if the engineer fails to comply with subsection (2).
- (4) A replacement card issued under subsection (1) has the same effect as, and is equivalent to, the original card.
- (5) On the issue of a replacement card, the original card ceases to be valid.

### Division 4—Removal

#### 15. Removal of name from register

- (1) The Director must remove a person's name from the register if satisfied that one or more of the grounds specified in section 16(1) applies to the person.

- (2) Subject to subsection (3), the Director must remove a person's name from the register if satisfied that one or more of the grounds specified in section 16(2) applies to the person.
