¹ Based on clinical needs, services are provided without limitation on the number, items and types.

² "Package Charges" fee model: A fixed, overall package price covers all services required for the treatment process.

³ "Simplified Itemised Charges" fee model: Medical services are categorised into tiers based on their complexity, with uniform pricing applied to services within the same tier.

⁴ "Itemised Charges" fee model: Charges are based on the items used and their actual usage.
