**Hon Erik YIM's motion on
“Formulating a development vision for the HKSAR to actively dovetail
with the National 15th Five-Year Plan”**

Wording of the Motion

That on the basis of the great development achievements made by the National 14th Five-Year Plan, our country is formulating the 15th Five-Year Plan in the light of the development situations in various provinces and municipalities across the country; integrating into the overall national development is the natural choice to ensure the sustainable and high-quality development of the HKSAR in the future; in this connection, this Council urges the SAR Government to proactively formulate a medium to long term development vision to actively dovetail with the National 15th Five-Year Plan, and strive for the incorporation of the development vision into the National 15th Five-Year Plan.
