**Revd Canon Hon Peter Douglas KOON's motion on  
“Formulating a comprehensive ‘homeless-friendly policy’ to  
build a caring and inclusive society”**

**Wording of the Motion**

That this Council urges the SAR Government to face up to the severity of the homelessness problem in Hong Kong and formulate a cross-departmental and multi-dimensional ‘homeless-friendly policy’ using a ‘people-centred’ approach as the core principle; to integrate resources in areas such as housing, welfare, healthcare and employment to provide comprehensive support for the homeless; to enhance community education and public promotion to eliminate labelling and discrimination against the homeless; and to encourage the business sector, religious groups and community organizations to participate jointly in establishing a diversified and collaborative support network, so as to assist the homeless in rebuilding their confidence and dignity, gradually integrating into society and regaining the ability to live independently, thereby building a caring and inclusive society.
