

Autonomous Vehicle Applications Promotion Working Group

Terms of Reference

1. Monitor the progress of relevant autonomous vehicle (AV) schemes in accordance with the targets and performance indicators set forth in the Policy Address regarding the development of autonomous driving, and provide guidance and advice on the direction of development.
2. Research and promote the commercialisation of AV schemes and develop roadmaps.
3. Supervise the implementation of AVs or vehicle-to-everything (V2X) projects, and promote and monitor their trials and uses in Hong Kong (especially in New Development Areas).
4. Facilitate inter-departmental coordination to ensure the smooth progress of AV trial schemes.
5. Provide guidance on promoting autonomous driving to the public to increase public participation and awareness and acceptance of AVs.
