**Hon HUNG Kam-in's motion on
“Promoting the development of Hong Kong's silver economy to align with
national strategies”**

Wording of the Motion

That the Outline of the National 15th Five-Year Plan stipulates deepening the implementation of the national strategies for actively responding to population ageing, and refining the policies and mechanisms for coordinating the development of elderly care programmes and industries; in order to support the SAR Government in formulating Hong Kong's first five-year plan and appropriately considering the challenges and opportunities brought about by population ageing, this Council urges the SAR Government to actively dovetail with the country in improving the strategy on population development and promoting high-quality population development, and, through the Working Group on Ageing Society Strategies established last year, to promote the standards and mutual recognition system for elderly care services in the Guangdong-Hong Kong-Macao Greater Bay Area ('GBA') and to formulate a sustainable service delivery model, thereby giving full play to GBA's own advantages and role, and injecting new impetus into the coordinated development of the silver economy in GBA.
