

Annex

As at end of May 2026, the Working Group reviewed and gave agreement-in-principle to 38 applications for the implementation of hydrogen trial projects, with details as follows:

No.	Applicant	Trial project	Progress
1.	Citybus Limited	A hydrogen refuelling facility at its West Kowloon Depot	Commenced in November 2023
2.	Sinopec (Hong Kong) Limited	A public hydrogen refuelling station at Au Tau, Yuen Long	Commenced in June 2025
3.	Hong Kong and China Gas Company Limited	A hydrogen extraction facility at its Tai Po plant	Commenced in November 2023
4.	Citybus Limited	A hydrogen fuel cell (HFC) double-deck bus	Commenced in November 2023
5.	Linde HKO Limited	Use of a hydrogen tube trailer to deliver hydrogen to a hydrogen fuelled light rail vehicle	Completed in October 2024
6.	MTR Corporation Limited	A hydrogen fuelled light rail vehicle in Tuen Mun as a non-revenue train	Completed in October 2024
7.	Citybus Limited	5 HFC double-deck buses and a hydrogen refuelling facility at its bus depot in Chai Wan	Discontinued due to commercial reasons
8.	China State Construction Engineering (Hong Kong) Limited, Hong Kong Nation-Synergy International Hydrogen Power Technology Co., Limited, and Sinopec (Hong Kong) Limited	Provision of electricity for a site office at a construction site in Lok Ma Chau with hydrogen fuel	Completed in mid-2025
9.	Hong Kong and China Gas Company Limited and Hong Kong Padel Academy Limited	Extraction of hydrogen from the existing town gas network at a suitable site in Sai	Commenced in July 2025

		Kung to generate electricity for charging electric vehicles	
10.	Epro Advance Technology Limited	Use of silicon to produce hydrogen for power generation equipment to provide electricity at a public housing construction site in Tung Chung	Preparation in progress
11.	Waihong Environmental Services Limited	2 HFC refuse collection vehicles	Discontinued due to commercial reasons
12.	Food and Environmental Hygiene Department	3 HFC street washing vehicles	Commenced in June 2025
13.	China State Construction Engineering (Hong Kong) Limited, Hong Kong Nation-Synergy International Hydrogen Power Technology Co., Limited and Sinopec (Hong Kong) Limited	Provision of electricity with hydrogen power generation equipment for electric machinery at a construction site in Sheung Shui	Commenced in November 2025
14.	Veolia Hong Kong Holding Limited	Production of hydrogen by using landfill gas and installation of related hydrogen refuelling facilities at the South East New Territories Landfill Extension	Preparation in progress
15.	International New Energy Industry Alliance Limited, Wing Tat Cargo & Trading (HK) Limited, H2 Powertrains Limited and Ontime International Logistics (HK) Co. Limited	10 HFC goods vehicles for cross-boundary transport purposes	Preparation in progress
16.	China State Construction Engineering (Hong Kong) Limited, Hong Kong Nation-Synergy	A 19-seater HFC minibus and a 55-seater HFC coach for providing shuttle	Preparation in progress

	International Hydrogen Power Technology Co., Limited and Sinopec (Hong Kong) Limited	service commuting the construction site for workers, and 3 HFC forklifts to be trialed at the construction site	
17.	Kingroad Logistics Limited, Allenbus Automotive Technology Co., Limited and Hong Kong Hydrogen Fuel Cell Company Limited	A HFC medium goods vehicle for cross-boundary transport purposes	Preparation in progress
18.	Sinopec (Hong Kong) Limited	A HFC light goods vehicle for local transport purposes at its oil terminal in Tsing Yi	Preparation in progress
19.	Wilson Logistics Limited	2 HFC goods vehicles for cross-boundary transport purposes	Discontinued due to commercial reasons
20.	Kam Wai Tourist Bus (HK) Company Limited	2 HFC coaches for local passenger service purposes	Preparation in progress
21.	China Travel Tours Transportation Services HK Ltd., Allenbus Automotive Technology Co., Limited and REFIRE Hong Kong Limited	2 HFC coaches for cross-boundary passenger service purposes	Preparation in progress
22.	Sinopec (Hong Kong) Limited	Production of hydrogen with solar energy at the restored Pillar Point Valley Landfill in Tuen Mun	Preparation in progress
23.	Hong Kong and China Gas Company Limited and CIMC Enric Hong Kong Limited	Provision of electricity with hydrogen power generation equipment for charging electric vehicles (EVs) at a commercial building in North Point	Commenced in March 2026
24.	Hong Kong and China Gas Company Limited and the Hong Kong	Extraction of hydrogen from the existing town gas network at a	Preparation in progress

	Housing Society	construction site in Shau Kei Wan to generate electricity for charging EVs and providing electricity for the site office	
25.	Affluent Coach Services Company Limited	2 HFC coaches for local passenger service purposes	Preparation in progress
26.	Hong Kong and China Gas Company Limited and the Hong Kong Science and Technology Parks Corporation (the HKSTPC)	Extraction of hydrogen from the existing town gas network at the HKSTPC to generate electricity for charging EVs	Preparation in progress
27.	Bibicar International Trade Co., Limited	Display of 30 HFC goods vehicles for test driving and sales purposes	Preparation in progress
28.	Hong Kong and China Gas Company Limited and Chi Shing New Energy Technology Co., Limited	Provision of electricity with hydrogen power generation equipment to support the operation of electrical equipment at a recreation facility of the Leisure and Cultural Services Department at Fan Kam Road, Fanling, for the golf event of the 15th National Games	Completed in November 2025
29.	Vocational Training Council	Hydrogen energy training facilities at the Tsing Yi campus of the Hong Kong Institute of Vocational Education	Preparation in progress
30.	The Hong Kong and China Gas Company Limited	A hydrogen extraction facility at its Tai Po plant	Preparation in progress
31.	Pacific Gate Development Limited, the Hong Kong and China Gas Company	Provision of electricity with hydrogen power generation equipment for a construction site	Preparation in progress

	Limited, Chi Shing New Energy Technology Co, Limited and China Overseas Building Construction Limited	office in Central	
32.	Sinopec (Hong Kong) Limited	Two HFC commercial vehicles for the purpose of daily transportation of personnel and equipment	Preparation in progress
33.	Guangdong Yiyun Logistics Supply Chain Company Limited	Five HFC cold chain goods vehicles for cross-boundary transport	Preparation in progress
34.	G.D-H.K Traveller Plus Limited	Two HFC vehicles for cross-boundary vehicle towing service	Preparation in progress
35.	Sinopec (Hong Kong) Limited, Maxim's Caterers Limited and HYPERVIEW (Hong Kong) Technology Company Limited	Two HFC cold chain goods vehicles for cross-boundary transport	Preparation in progress
36.	Concord Bus Co Ltd	Two HFC coaches for local passenger services	Preparation in progress
37.	Sun Sang Tourist Company Limited	Two HFC coaches for local passenger services	Preparation in progress
38.	Construction Industry Council and The Hong Kong and China Gas Company Limited	Provision of electricity with hydrogen powered generation equipment for charging electric vehicles at CIC Zero Carbon Park in Kowloon Bay	Preparation in progress

Note:

The approval time for trial projects varies depending on the technical aspects (such as safety considerations) and other factors (such as commercial considerations) involved in each case. For applications relating to non-transport applications (in particular hydrogen gensets) and HFC vehicles, the average time required for obtaining agreement-in-principle is about two months and three months respectively, calculated from the date on which the applicant has

submitted all requisite information and duly refined the project in response to the comments raised by the departments concerned.
