* LD has implemented ESLS since 4 September 2023. The vetting of applications received may be completed after 31 March 2026, and hence the number of imported workers approved only reflects the results of some of the applications received during the same period. In addition, applications approved during the above period also include those submitted under the Supplementary Labour Scheme prior to the launch of ESLS. Therefore, the number of imported workers approved does not correspond to the number of imported workers applied for during the same period.
