

**Numbers of Applications and Quotas under
the Driving on Lantau Island Scheme from 2023 to 2025**

Year	Number of applications ¹	Number of quotas allocated	Number of applications abandoned after quota allocation for failure to pay by the deadline
2023 ²	84 500	12 500	7 000
2024	31 100	12 200	3 300
2025	26 900	12 400	3 500

Note 1: If the same vehicle submits an application in the first round of the ballot, the second round of the ballot, and/or the first-come, first-served stage within the same month, it will be counted as one application.

Note 2: The TD reviews the operation of the balloting system from time to time to ensure its fairness, impartiality and smooth operation. As there had been a substantial number of applications that were abandoned due to failure to pay by the deadline after a quota had been allocated under the Driving on Lantau Island Scheme since the latter half of 2022, the TD has, upon review, enhanced the relevant system from May 1, 2023 to require applicants to provide the first 4 characters of the identity document number of the registered vehicle owner for verification when submitting applications, so as to further optimise the arrangement for quota allocation.
