**Hon Jimmy NG's motion on
“Nurturing internationalized vocational and professional talents
to drive innovation and technology development”**

Wording of the Motion

That innovation and technology (‘I&T’) drives economic transformation, and talent drives high-quality development; the Outline of the National 15th Five-Year Plan supports Hong Kong in developing into an international I&T centre and in building itself into an international hub for high-calibre talent; in order to support the SAR Government in formulating Hong Kong’s first five-year plan to drive I&T development, this Council urges the SAR Government to formulate plans to enhance the vocational and professional education and training system, leverage our advantages of connecting the Mainland with the world, nurture internationalized vocational and professional talents, and unleash our full potential and contribute Hong Kong’s strengths, so as to accelerate new industrialization.
