**Hon Julia LAU's motion on
“Seizing the development opportunities of the Northern Metropolis and
green transport and building an innovation-driven smart city”**

Wording of the Motion

That in order to align with the Outline of the National 15th Five-Year Plan and the formulation of the First Five-Year Plan for Economic and Social Development of the Hong Kong Special Administrative Region, this Council urges the Government to make every effort to promote the building of a green and smart city, empower smart mobility and green transport through digital, intelligent and green technologies, and accelerate the introduction of low-carbon, green energy transport modes; complementing with the development plan of the Northern Metropolis, and building upon the promotion of urban-rural integration, to enhance the provision of blue-green ecological infrastructure and create eco-tourism experiences integrating green transport and smart management; and under the vision of building a ‘liveable city’ and in accordance with the ‘15-minute neighbourhood’ planning concept, to enhance the provision of convenient and accessible basic ancillary facilities for living in clothing, food, housing and transport, as well as cultural, recreational, sports and community facilities in all districts, thereby building a green and smart city through intelligent means and further integrating into the overall high-quality development of the country.
