Annex 2

Number of Demand Notes Issued, Amounts Involved and Amounts Recovered in respect of Default Works

Year	Number of demand notes issued (Note 1) (Number of overdue cases)	Amount involved in demand notes issued (Note 2) ($ million)	Amount successfully recovered (Note 2) ($ million)
2021	1 868 (102)	33.3	30.1
2022	2 411 (121)	66.3	63.5
2023	2 528 (136)	69.3	64.5
2024	4 299 (326)	108.7	100.0
2025	7 578 (1 118)	194.3	160.4

Note 1: The figures may not necessarily relate to statutory orders/notices issued or works carried out in the same year. As demand notes are issued on an individual unit basis, if a default works project involves more than one unit, more than one demand note has to be issued for that project.

Note 2: The amounts include the cost of works, supervision charge and surcharge. Departmental records do not categorise these costs separately.
