Hon CHAN Pui-leung's motion on
"Reviewing the effectiveness of medical insurance to enhance the efficiency of healthcare services"

Wording of the Motion

That in order to address the enormous health expenditure and demand for healthcare services in Hong Kong in the future, this Council urges the Government to comprehensively review the healthcare financing arrangements including the Voluntary Health Insurance Scheme, and give full play to the functions of medical insurance in making good use of private healthcare resources to share the pressure of the public healthcare system, so as to enhance the financial sustainability of Hong Kong's healthcare system and provide the public with more high-quality choices of healthcare services.
